FOLDING GLASS DOOR SL 82

#### DESIGN

Layered glass overlapping the slim protective surrounding aluminium profile achieve the highly aesthetic quality of an edge-to-edge all-glass system.

# WIDTH AND HEIGHT ADJUSTMENT

After installation, the panels are easily adjustable in width. Height adjustments of up to 8 mm are also possible to compensate for dimensional inaccuracies in the structure or if settling of the building has occurred.

#### FURNITURE

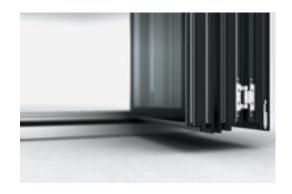

Concealed corrosion-resistant stainless steel fittings ensure clear profile lines and safety. When the folding glass door is open, the panel stack is compact.

### BARRIER FREE

A flush floor track without upstand is also available that ensures barrier free living through large openings without a threshold.

### ENGINEERED

Long-lasting stainless steel runners and tracks ensure easy, quiet and smooth operation of the folding glass doors.

### SAFE OPERATION

A system integrated stainless steel door handle and the integrated multi-point SL locking system ensure high security.

#### SECURITY

Special espagnolettes with 24 mm throw bolts lock the panels into the top and bottom frame profiles enabling them to withstand gales and provide high security.

### HEAT INSULATION

Stable multi-chamber profiles with quadruple thermal insulation and double-/triple-glazing provide the best heat insulation after the latest European Energy saving regulations (EnEV).
